

Start your Multi Gas Project with KRB

# FOR US TRUST COMES FIRST

Choice of Power is Choice of Future

## WE SPECIALIZED IN

-  LPG Reticulated System for Residential Township project
-  LOT / VOT for Commercial or Industrial Project
-  Bulk LPG Installation
-  LPG piping / Natural Gas Piping
-  LPG/CNG/ AMC Contracts
-  LPG Gas Leak Detection System
-  Industrial Piping / Manifold
-  Oxygen / Nitrogen Piping

**We are Approved HPCL and BPCL Contractors**

## INTRODUCTION

We, KRB Multi Gas Projects Pvt. Ltd. boast 10 years of experience in the field of LPG Installations. We undertake Design, Supply, Installation & Commissioning of LPG Systems / Natural Gas Systems on Turnkey basis as per IS Code & Safety Norms. We are committed for continuous improvement in the quality of our services to achieve the level of excellence. We have an in house team of Qualified Engineers, Technicians & Welders to deliver the highest level of Satisfaction and Safety to all our customers.

## SERVICES

### RESIDENTIAL

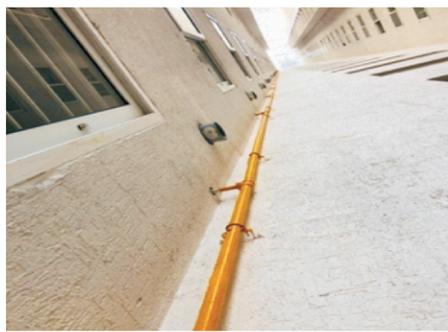

#### LPG Reticulated System-

Reticulated LPG/Gas system is nothing but supplying the LPG through special LPG pipeline network. This system is most sought of in residential projects in all metro cities.

LPG cylinders are stored in a cylinders bank at the ground level and the regulators are installed in all the apartments. Special protected devices are installed in Gas bank. The system has multiple pressure regulation stages to supply LPG to user at low pressure and to make the system safer. This system is compatible to piped natural gas after the availability of natural gas in respective cities.

#### Advantages of LPG Pipe Gas Installation

1. Profitable
2. Easy accessibility
3. Constant pressure
4. Easy to handle
5. No loss of LPG
6. Installation Commissioning constancy to IS 6044 (Part I & II)
7. Occupies less area
8. Eliminate risk by having advance technology/material

## Safety Standard

System is designed to meet Indian safety standards applicable as bellow.

- IS: 6044(PART 1) as applicable to multi-cylinder installation
- IS: 6044 (PART 2) Commercial, Industrial and bulk storage installation

## COMMERCIAL / INDUSTRIAL

We supply cost effective and energy efficient systems as per the requirement of the customers

### CONVERSIONS

The rising cost of HSD, Furnace oil, Coal, other liquid fuels together coupled with handling, storage, spillage & adulteration is forcing companies to look for alternatives. Also the Environment & Laws becoming more stringent and consumers awareness is increasing for reducing pollution, Companies are now looking for green alternatives.

For this purpose LPG/PNG is supplied through a network of pipelines from a centralized cylinder bank / manifold system to run industrial/commercial equipment's such as Paint shops, Boilers, Hot water generators, Dyers, Dryers, Ovens, Furnaces etc.

### VOT (VAPOUR OFF TAKE)

The 'N' No of cylinders are connected to the manifold & the vaporized LPG is directly down from the cylinders with Natural Vaporization Process. This vaporized LPG is passed through the properly designed 1st Stage & 2nd Stage Pressure Reducing Station. This LPG VOT facility is normally recommended for Low utility consumption per hour of LPG

## LOT (LIQUID OFF TAKE)

LPG LOT System is advance concept in Multi-cylinder Installation which offers Strength of Bulk LPG Installation and easy functionality. LPG LOT System Can caters to volumes up to Z50 Kg per hour Installation which overcomes lots of problems and demerits of bulk LPG Installation & conventional Manifold (VOT) system. LPG LOT System withdraws Liquid LPG up to 10 Kg/Hr

## OUR CLIENTS

## KRB Multi Gas Project Pvt. Ltd.

- 📍 **Corporate Office :-** Sr. No. 209, Dnyanesh Heights Office No. 2, Near Shivaji Maharaj Statue, Kothrud, Pune- 411038.India
- 📍 **Branch Office -** Hyderabad K3 Residency, 303 Kundan Nagar Colony, Puppalguda, Hyderabad, Telengana – 500 089. India
- 📍 **Branch Office -** Pratap house, 1 st Floor, Jeevan Nagar, St no. 9, Focal point, Ludhiana-141010, Punjab.
